1. No purchase and sale of goods will occur unless a Sales Confirmation (S.C) form is signed, sealed by the supplier and sent back to the buyer. The supplier is obliged to send S.C. within 4 days after receiving the order.
2. If the buyer accepts the new delivery date, the price from Sales Confirmation will be decreased according to the following rules: one week of delay – the price will be decreased by 3%; (ii) two weeks of delay – the price will be decreased by 6%; (iii) three weeks of delay – the price will be decreased by 15% or the buyer can demand air shipment on supplier's cost; or the buyer has the right to cancel the order.
3. No difference between the sample on which the order was based and the manufactured goods will be accepted. The supplier must not send/ship such goods without the written authorization of the buyer, who, even in such case, has the right to reject goods once they have been examined.
4. The delivery of goods must be done in the ordered quantity. The buyer will accept the difference of a lower or higher amount of stock up to 3% of the quantity presented in the order. Nevertheless, in case of greater difference of stock than 3% (lower or higher) the supplier is obliged to receive the confirmation of acceptance from the buyer in the form of a written statement.
5. If, by any reason, the buyer introduces such changes on a model that may affect the delivery date, the supplier is obliged to declare whether they will be able to keep the original delivery date or they will have to change it. Any changes of delivery date must be obligatory confirmed with the buyer. In case of lack of information from the supplier's side on the necessity of change of the delivery date, the buyer understands that the supplier takes the full responsibility to send the goods in the first delivery date on the order.
6. If the majority of delivered goods will be inconsistent with the order in terms of quality, the buyer will be entitled to reimbursement of the costs of goods (material and labour), transport, duty, taxes and disposal. In such event the goods will not be returned to the producer and shall be destroyed by the buyer. The disposal cost shall not exceed 300 USD.
7. The supplier confirms that he/she has carefully read and understood the manuals of cooperation. The supplier guarantees that he/she will obey and follow all information and instructions presented in the manuals.
8. The correct original shipping documents must be delivered to the ordering party according to the deadlines indicated in Shipping Documents Manual. Incorrect or delayed originals will result in financial fee – 5% of order.
9. The supplier and the buyer will be subjected to Polish law and the jurisdiction and contention of the courts of justice and tribunals of the city of Gdansk (POLAND), manifestly foregoing any other which might correspond to them.
10. The supplier guarantees that he/she understands and accepts the requirements of the Code of Conduct, that he/she has received.
11. The supplier guarantees that composition settled by him on Sales Confirmation reflects the actual fabric composition in bulk production. Discrepancies over 3% may result with discount claimed by Buyer which will also cover possible penalties from government Office of Competition and Consumers.
12. It is the supplier's responsibility to fulfill quality requirements.

Annex No. 1 Chemical substances

Due to the various legislations of LPP export countries concerning the chemical substances in the manufacture of textile and other consumer goods we are obligated to inform you about the following:

1. LPP S.A. has prepared a list of chemical substances with the limits that should not be exceeded when it comes to the LPP goods
2. The acceptance of the formal order by the supplier guarantees that the goods do not contain any sort of substances that are harmful for human health and environment or are within the limits according to LPP STANDARD ON CHEMICALS SUBSTANCES and LIMITS
3. Compliance with the LPP STANDARD ON CHEMICALS SUBSTANCES and LIMITS is an essential condition and compulsory for all LPP suppliers.
4. Non- compliance with the LPP STANDARD ON CHEMICALS SUBSTANCES and LIMITS will result in various penalties.
5. The information in Annex No. 1 is an integral part of the Formal Order.
6. ANY CHEMICAL TESTS VERIFYING ABOVE REQUIREMENTS ARE RUN ON BEHALF OF LPP BY THIRD PARTY AND ARE CONSIDERED TO BE FINAL AND INDISPUTABLE. LPP RESERVES THE RIGHT TO CONDUCT THE CHEMICAL TESTS WITHIN ONE YEAR FROM THE DELIVERYDATE.

Risk Matrix per REACH Annex XVII and POP regulation

Test Items		Proposed Test Methods	Limits	Leather	Synthetic Leather (PU, PVC imitation leather)	Polymeric components (PU, EVA, TPU, PVC, Rubber, TPR, etc.)	Material Types			Coating, Print, Pigment Print, Flocking Print, etc	Metals
							Synthetic	Natural	Blends		
REACH Annex XVII Entry 43	Azo Dyes	EN 14362-1, EN 14362-3, ISO 17234-1, ISO 17234-2	≤50 mg/kg (22 amines)	•	• (with textile backing only)	•	•	•	•	(only test when with fabric/leather)	
REACH Annex XVII Entry 27	Nickel Release	EN 12472, EN 1811	≤0.5 µg/cm ² /week (general) ≤0.2 µg/cm ² /week (piercing item)								•
REACH Annex XVII Entry 63	Total Lead	Acid digestions followed by ICP/AAS analysis	Paints & Surface Coatings < 90 mg/kg Substrate <500 mg/kg	• (if coated, painted, pigment treated)	•	•				• (if non-scrappable, test with fabric/leather)	•
REACH Annex XVII Entry 23	Total Cadmium	EN 1122	100 mg/kg (plastic, metal, paint with code 3208.3209) 1000 mg/kg (paint on painted articles; paint code 3208.3209 with Zinc >10%)	• (if coated, painted, pigment treated)	•	•				• (if non-scrappable, test with fabric/leather)	•
REACH Annex XVII Entry 47	Chromium VI	ISO 17075	<3 mg/kg	•							
REACH Annex XVII Entry 51, 52	Phthalates (DEHP, DBP, DINP, DIDP, DNOP)	ISO 14398; ISO/TS 16161	0.1% in total (DEHP, DBP, BBP) 0.1% in total (DEHP, DINP, DNOP) (see notes)	•	•	•				• (if non-scrappable, test with fabric/leather)	
REACH Annex XVII Entry 61	Dimethyl fumarate (DMFu)	ISO/TS 16166	<0.1 mg/kg	•							
REACH Annex XVII Entry 20	Organotin Compounds Tri-substituted organostannic compounds (T1, TPN1) DBT, DBT	ISO/TS 16179	Each <0.1% by weight of tin in mixture or article	• (if coated, painted, pigment treated)	•	•	(if with antibacterial function with print or coating)	•	(if with antibacterial function with print or coating)	• (test with fabric/leather)	
REACH Annex XVII Entry 22 Various National Regulations	Pentachlorophenol	KOH extraction, followed by 64 LFGB 82.02.8 / ISO 17070	<5.0 mg/kg	•	• (with textile backing only)		•	•	•	• (test with fabric/leather)	
REACH Annex XVII Entry 46, 46a	Nonylphenols (NPs) & Nonylphenol Ethoxylates (NPEOs)	ISO 18254-1, ISO 18218-1	NP or NPEO <0.1% in substances or mixtures NPEO <0.01% in textile article (after Feb 2021)	•							
POP Regulation (EC) No. 850/2004	Perfluorooctane sulfonic acid and its derivatives (PFOS)	CEN/TS 19868	<10 mg/kg in substances or in preparations; <0.1% in semi finished products or articles; <1.0 µg/m ² in textiles or other coated materials				• (AP only)	•	•	• (test with fabric/leather)	
• Only for materials with water repellent functions											
REACH Annex XVII Entry 50	Polycyclic Aromatic Hydrocarbons (PAHs) (8 PAHs)	AIFS GS-2014	General ≤1 mg/kg each PAH Toxic/diocrine articles ≤0.5 mg/kg each PAH	•	•	•				• (if non-scrappable, test with fabric/leather)	
REACH Annex XVII Entry 4,7,8,45, 67	Flame Retardants (OctaBDE, Deca BDE, TEPA, TRIS, GBMS/LOMS, PBBs)	Solvent extraction, followed by GC/MS/LOMS	TRIS, TEPA, PBB: Not detected (DL: 10 mg/kg) OctaBDE, Deca BDE: ≤1000 mg/kg as substances or mixtures	•			•	•	•	• (test with fabric/leather)	
POP Regulation (EC) No. 850/2004	Flame Retardants (TetraBDE, PentaBDE, HexaBDE, HeptaBDE, HBCDD)	Solvent extraction, followed by GC/MS/LOMS	TetraBDE, PentaBDE, HexaBDE, HeptaBDE: <10 mg/kg each HBCDD: ≤ 100 mg/kg	•			•	•	•	• (test with fabric/leather)	
Various National Legislation	Formaldehyde	Textile - EN ISO 14184-1 Leather - EN ISO 17226-1	Infant items < 16 mg/kg Items in direct skin contact < 75 mg/kg Leather 75 mg/kg	•	•		•	•	•	•	
LPP Requirement	Allergenic Disperse Dyes	DIN 54231	< 50 mg/kg	•	•		•		•		
LPP Requirement	Chloroorganic Carriers	DIN 54232:2010	< 1.0 mg/kg	•	•		•		•		
POP Regulation (EC) No. 850/2004	Short Chain Chlorinated Paraffins (SCCP)	ISO 18219	<1% in substances or preparations <0.15% in articles	•	•	•				• (if non-scrappable, test with fabric/leather)
